Master's Thesis in Informatics

DRAFT - Thesis Proposal:
Something With Usability in PIX:E
Thesis Proposal: Irgendetwas mit Usability
in PIX:E

Author:	Rai Trouvain
Supervisor:	Prof. Dr. Georg Groh
Advisors:	Julian Geheeb M.Sc.
Submission Date:	DRAFT - 05.09.2025

Disclaimer

I confirm that this Master's thesis is my own work and I have documented all sources and material used.

1 Introduction

1.1 Motivation

- main goal: implementation of sustainable/maintainable and effective usability/accessibility principle

2 Background

3 Methodology

3.1 Research

- fundamental guidelines and principles of usability
- focus: open source software, planning tools, design toolkits...

3.2 Usability Inspection/Audit

- examine existing software components
 - maybe focus on some parts of it only
- evaluate current state based on results from previous research step
- gain an understanding of scope and context of possible improvements/usability features

3.3 Improvements - Iteration 1

- implement (a selection of) improvements based on inspection and research

3.4 Usability Test (User Study)

- use improved version
 - maybe another round afterwards?
- steps:
 - research how to conduct a user study
 - design user study
 - find participants + conduct study
 - evaluate results

3.5 Improvements - Iteration 2

- integrate feedback from user study

4 Timeline

	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul
